

Sammi Green — Module #2 Background Information

CHARACTERS

- **Child Protection Services (CPS) Investigator**
- **Child Abuse Detective**
- **Sammi Green**
- **Anna Green Hartwin**
- **James Green**
- **Anthony Hartwin, Sr.**

BACKGROUND INFORMATION

In this module, participants engage in a simulated home visit that allows them access to interview Sammi, her mother Anna, her 13 year old brother, James, and her stepfather, Tony Sr.

The team must first inform the Caregivers of the hotline call, then eventually create a safety plan that prohibits contact between Sammi and her stepfather during the investigation.

SIMULATION

LOCATION: The Hartwin Home

Volunteers playing roles of available characters (see above) have received profiles with character specific information about the scenario and their character's potential reactions. However, they do not have any information about the other characters.

CPS Investigator and **Children's Detective** arrive to conduct a safety check, inform Caregivers of the allegation, engage in initial investigation steps and ensure safety of Sammi pending the completion of the investigation.

- **CPS Investigator** will initiate the simulated interaction with whomever answers the door.
- **CPS Investigator** and **Child Detective** may choose to engage any of the other available characters in the simulation as they deem appropriate.
- Once engaged, other characters may engage already "activated" characters or they may initiate engagement with other available characters as deemed appropriate.
