

Normally, you may facilitate a simulation alone or with one other person. However, during this learning community, we hope everyone will have the opportunity to demonstrate their facilitation skills. This sheet has some ideas for ways to share the facilitation roles. Feel free to use it if it is helpful or make your own strategy. Plan to switch primary and secondary leadership roles over the two days.

Simulation Module:

Role	Facilitator(s)	Time Estimation
Review key facts, hunches/hypotheses, and learning issues from the previous cycle (if applicable)		
Issue trigger warning		
Distribute required documents and provide context		
Initiate PBL with focus on facts		
PBL facilitation focus on hypotheses		
PBL facilitation focus on next steps		
PBL facilitation focus on learning issues		
Highlight key core concepts	Primary CC: _____ Primary CC: _____ Secondary CC: _____ Secondary CC: _____	
Highlight key TIERS observed or discussed		
Process this part of the simulation through debriefing (through focus on diversity, implicit bias, &/or secondary traumatic stress prevention)		
Monitor the time and keep it moving
